Fugitive Emissions Summit China 2018

September 19–20, 2018
Shanghai, China

A message from the Conference Chairman

The Fugitive Emissions Summit China 2018 will be held from 19 to 20 September 2018 in Shanghai, China. You are sincerely invited to attend this important event.

Over the past three decades, China's economy has been developing at an unprecedented pace. However, we are also facing enormous challenges on both environmental protection and sustainable growth. How to deal with Fugitive Emissions more strictly to protect our air quality and our health? How to manage our facilities more efficiently to ensure the safety and maintain the sustainable economic growth? These are all pressing questions in our industries that we must find answers for ourselves. And I believe this conference will provide direct helps to all of us.

This is also a great opportunity to learn and acquire new knowledge, build new networks, train new employees, and develop new collaborations. I look forward to meeting each and every one of you during the conference.

Sincerely yours,

Henry Ye, Ph.D.

Chemours China

Steering Committee Chairman of the Fugitive Emissions Summit China 2018

Call for Papers

Share your knowledge and experiences

After a resounding success of the first event of Fugitive Emissions Summit 2016, the Fugitive Emissions Summit has become an industry recognized platform for information exchange. A Steering Committee with representatives from end users, EPCs, LDAR companies and major valve suppliers works hand-in-hand with the Fugitive Emissions Summit team to provide the industry with a top-rate event.

How to submit an abstract

Please send your abstract to the conference co-ordinator, Ms Laura WANG, by e-mail at

FESChina.conf@kci-world.com.

Prospective authors wishing to present a paper should submit an abstract of about 300–400 words before 12 March

2018, and suggest a few topics for the session that it will fit. Mention your name and function, company name and full address details including e-mail address, and the title of the paper. The following selection criteria will apply:

- quality of the contents
- focus on application experience
- informative to a wide audience
- tie-in with the conference subject
- technical nature, i.e. non-commercial

The deadline for abstracts is 12 March 2018. Presenters will be notified by 1 April 2018 as to whether or not their proposed presentation has been

accepted by the Steering Committee. They will then be invited to send in the complete manuscripts which will be published at the Valve World website. The deadline for manuscripts will be 1 August 2018. Presenters will receive a reduction of 25% on the conference fee.
